

# **CANCELED: Planned Network Maintenance: Primary Data Center**

Due to an unrelated issue with a redundant component elsewhere in the Rice Primary Data Center, the network maintenance that was scheduled for today from 5:00 am until 7:00 am is being canceled. We will be rescheduling the originally planned work for a future date.

This weekend, if you notice anything not performing as expected, please contact OIT's Operations team at (713) 348-4989 or (713) 322-3884. If, during normal business hours, please contact the OIT Helpdesk at 713-348-HELP.

Thank you.
