

Vendor VPN address change

On Thursday, August 15, Rice University vendors that require access to systems on our network will use a new address in their VPN connection.

Campus sponsors for vendors using VPN were notified on Monday afternoon and asked to forward the new address to their vendors. To obtain the new address, vendors should contact their Rice sponsor. For assistance modifying the previous address, contact the IT Help Desk: helpdesk@rice.edu or 713.348.4357.
