EduBlogs Migration May 28-31

The university's general purpose blogging and content management system, blogs.rice.edu, is moving to a more robust WordPress platform with many popular themes, plug-ins, widgets and other features. Rice University has contracted with CampusPress by EduBlogs to provide the new cloud-hosted environment. Details on the new features can be found in <http://about.blogs.rice.edu>.

Over the weekend of May 28-31 the full contents of blogs.rice.edu will be moved into the new CampusPress environment.

- The new platform will retain the previous domain names at blogs.rice.edu.
- The old Rice blogs platform will be renamed oldblogs.rice.edu and content archived "as is."
