

# Storage, Crate, RNAS reboot April 3

On April 3, at 9AM, OIT will begin preparatory work for updates to three core storage systems. No interruptions should occur until 9PM, when a series of rolling reboots will cycle through these storage solutions:

- Storage.rice.edu (individual storage and department shared storage)
- Crate (scratch storage space for researchers)
- RNAS (storage solution purchased by departments for archival storage, not research related)

These services will remain online for most of the rolling reboot, with only intermittent connection interruptions. Updates will be posted online: [it.rice.edu](http://it.rice.edu).
