

We are experiencing issues getting to certain websites via encrypted sessions

A part of our system which redirects your web connection to an encrypted (**https**) session is currently not working. Our staff is investigating the issue. For the time being, if you are having difficulty accessing a website, please type in the full website URL (i.e. <https://docs.rice.edu>).

Please contact the Help Desk (#4357 or helpdesk@rice.edu) or me if you have any questions. We will send out a status when the issue is resolved.

Thank you for your patience and understanding,
Mike
