

Kennel.ruf outage is still in effect

The build of the alternative server for **kennel.ruf** is still in progress. The original server cannot be recovered.

At this time, users cannot login to kennel.ruf. However, all web pages from the old ruf system are still accessible via a browser.

We are completing the Rice security scan and security checklist for the replacement server, and hope to have it operational on Tuesday; June 3, 2014.

Thank you for your patience as we continue to work on this issue.
